### Big Shoals Reroute

#### Map 15

The Florida Trail has been rerouted from NW Cansa Rd to the Bell Springs Trailhead. This route eliminates 5 miles of roadwalk and adds 3 new miles of trail through Big Shoals State Park. There is a campsite halfway along the new route overlooking Big Shoals.

This route eliminated the Madison Shelter, which was on private property. This route is blazed orange but not published on the official FTA produced hard copy maps.

Here is a map of the new route.
